

POLICY HHCA – Compressed School Week Schedule

The Board supports school schedule variations in schools where transportation schedules would result in longer yearly instructional and supervision times.

PURPOSE:

To more closely equate the total yearly instructional and supervision time in Peace Wapiti schools.

GUIDELINES & PROCEDURES:

1. The length of the school noon break, recess, and bus to school transitions before and after school should not be reduced to support the implementation or continuation of a Compressed School Week (CSW).
2. Generally, the compressed school week schedule identifies a maximum of twelve (12) CSW days and will be determined collaboratively by Central Office.
3. In some circumstances, after taking into consideration all other variables, the Superintendent may schedule additional CSW time to some schools to address the overall length of the school day.
